

RISK ASSESSMENT – WORKING SAFELY DURING CORONAVIRUS

Note: This Risk Assessment is based on the document issued by HM Government entitled “Working safely during COVID-19 in offices and contact centres - Guidance for people who work in or run offices, contact centres and similar indoor environments. 26 November 2020”. The focus for conducting this Risk Assessment is to enable safe working and support workers’ health and wellbeing during the COVID-19 pandemic. This Assessment applies to those who are currently in the workplace or about to restart as they cannot work from home and is intended to help businesses think about how to prepare for when office working returns. The government is clear that workers should not be forced into an unsafe workplace.

How to use this risk assessment

Requirement: This assessment is based on the Government guidance which details the requirements the business must meet to comply.

Potential issues: Record issues you identify, whether they be risks to health, well-being, financial or commercial risks to the business.

Initial Risk Rating: Each risk which is identified will need to be assessed by a **High**, **Medium** and **Low** rating

Existing Risk Controls: Record what controls you already have in place to tackle the issue.

Additional Risk Controls: Record the additional risk controls which are needed.

Residual Risk Rating: Reassess the risk with the controls to determine the final assessment.
